

105.1266 Timko

Report of Mrs. Timko on Hungarian Quarter.

On Thursday, September 23rd, at about noon passed through French to the corner of Paterson Street and overheard a man calling to someone (in Hungarian). He said, "Hey, Hey, you better stay in town." I paid no attention to this. At the answer, "I will not, I have nothing to do with the case", I turned back and stepped aside into the entrance of a house and saw a man and a woman stopping to talk to a man coming from the opposite direction, and this was the man to whom they had called. The man with the woman said, "You have so" and he answered, "I have not, it is all hearsay, what I know I know from Koma". (Koma is a term used in Hungarian by parents in addressing a Godfather of a child.) The first man said, "Willy told you that he ripped up Mrs. Mills." The second man became very much excited and said, "I never talked to Willy in my life. He is supposed to have told Koma that story, but I don't know anything about it. What I know is hearsay. They can't use me for a witness and I don't want to lose my job and get in trouble." Then he walked away. I followed him and he walked into an alley and disappeared into one of the buildings. I returned to where the conversation had been held to try and trace the man and woman, but they too had disappeared.

I reported this to Mr. Russell Watson immediately.
